

## Tandem-Groups (2025)

BRAZIL			
APC as an entry point to study small molecule regulation of the cell cycle	Dr. <b>Nubia Barbosa Eloy</b> , Universidade de São Paulo	MPI for Molecular Plant Physiology, Potsdam	August 2018 – July 2025
Movement ecology of birds in Brazil	Dr. <b>Francisco Voeroes Dénes</b> , Universidade de São Paulo	MPI of Animal Behavior, Konstanz	February 2020 – February 2026
Thermoelectricity and heat transport in topological materials	Dr. <b>Valentina Martelli</b> , Universidade de São Paulo	MPI for Chemical Physics of Solids, Dresden	November 2019 – December 2025
COLOMBIA			
Impact of fire in the Earth System	Dr. <b>Stijn Hantson</b> Universidad del Rosario, Bogotá	MPI for Biochemistry, Jena	December 2020 – December 2025
The evolutionary and ecological forces that shape the Theobroma cacao leaves	Dr. <b>Alejandro Quintero</b> Universidad Nacional de Colombia, Bogotá	MPI for Evolutionary Biology, Plön	November 2023 – November 2028

## URUGUAY

Brain-body basis of social conflict approach-avoidance in depression and in health	Dr. <b>Victoria Gradin</b> Universidad de la República, Montevideo	MPI for Human Cognitive and Brain Sciences, Leipzig	April 2023 – March 2028
The role of physical and chemical anti-herbivore defenses in long-term integrated crop-pasture sequences	Dr. <b>Ximena Cibils</b> Instituto Nacional de Investigación Agropecuaria, Montevideo	MPI for Chemical Ecology, Jena	March 2023 – February 2028
“Understanding ribosome biology in axons	Dr. <b>José Sotelo</b> Instituto Clemente Estable, Montevideo	MPI for Brain Research, Frankfurt	January 2022 – December 2025
